GHAZIABAD Since 1995 GREATER NOIDA

## CLINMASTERS

### MESSAGE FROM CHIEF MENTOR

**DR ANMOL S. KALHA**  
MDS, Col (Retd.) AD Corps

Welcome to ClinMasters!

It gives me immense pleasure to introduce our center for clinical excellence.

We are a team of experienced clinicians who stand committed to enhance your clinical skills.

All our training programs are clinically driven, based on interactive & hands on teaching learning experience – Tell Show and Do Methodology.

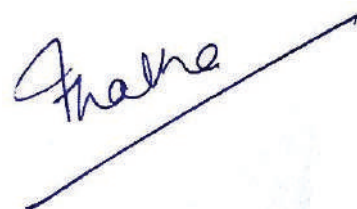

We offer long term & short term courses for young and experienced professionals.

We understand that there is a huge gap between the skill set you need to have as a clinician and what you learn as a part of your college curriculum.

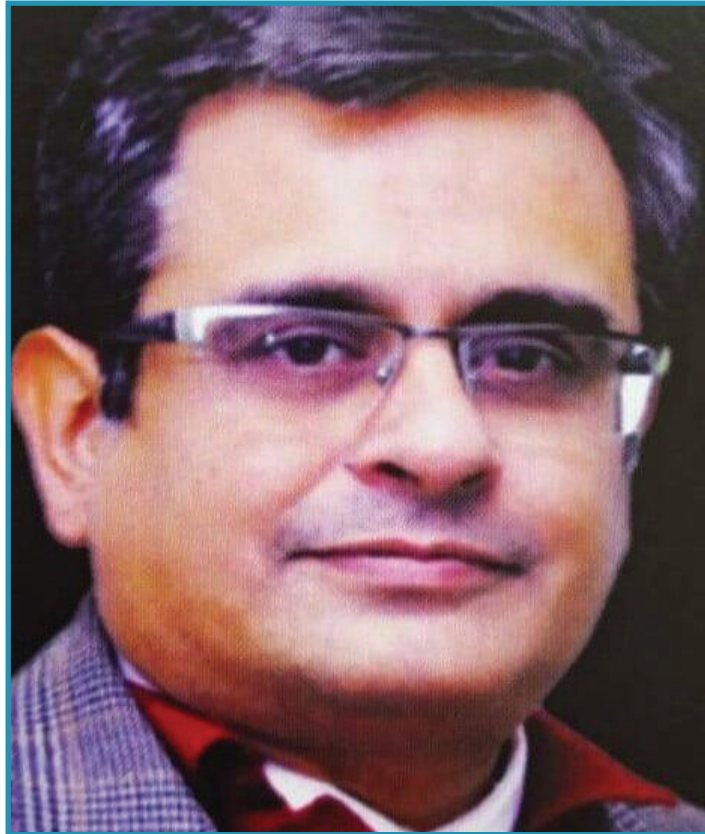

We bridge the gap between what you have learnt/what you know and what you need to know to achieve clinical success in your practice.

We are here to upskill you in contemporary practices and make you ready for a successful career.

We look forward to welcome you.

## **COURSE LEAD**

**Dr Sachit Anand Arora**

**MDS Periodontics**

**20 years + Experience**

**Trained 4000+ Dentists**

ClinMasters is a part of ITS Education Group which has 25 years + of strong standing in the field of dental education.

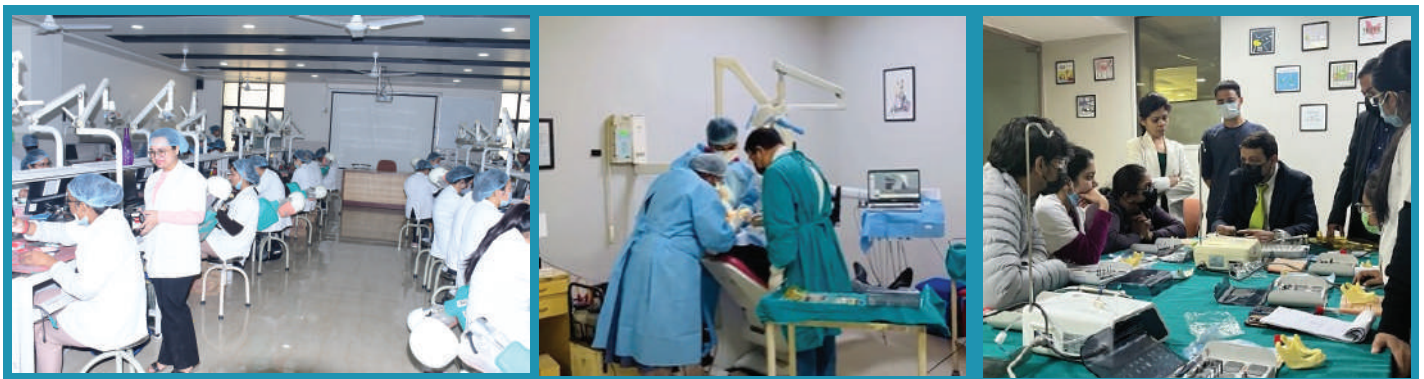

## Facilities at ClinMasters

We have a state of the art center with following facilities for course participants:

- Simulation Labs
- Dedicated Clinical Area for supervised patient work
- Virtual & Hybrid Live Demonstration Areas
- Smart Meeting Rooms for Interactive Teaching Learning Sessions
- Access to Library Resources
- Dedicated Coffee Shop, Pantry and Hospitality Services
- Boarding, Lodging & Travel Convenience services (as required)

## Highlights of Our Courses

- 100% Clinically driven courses
- Maximum Patient Work
- Nationally & Internationally Acclaimed Clinicians
- Limited Seats for Effective Learning
- Live Demonstrations
- Latest Instruments, Materials & Technologies

# ADVANCED CLINICAL PERIODONTICS

## About The Course

The course in advanced periodontics prepares clinicians to restore health to tooth supporting tissues and practice regenerative periodontics.

## Course Learning Outcomes

The participants will be able to handle advanced periodontal procedures in their dental practice.

They will be able to do the following independently & confidently:

- Non-Surgical Management of Deep Periodontal Pockets
